

Cable System MINI 2-LEG FIBER CABLE FAN-OUT KITS

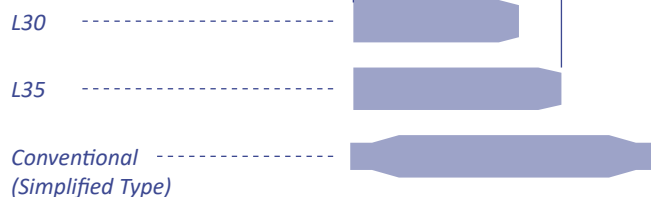

Using the fan-out kit provides additional protection to fibers that might be installed in an equipment rack, or other exposed location.

L=35mm / ϕ 8mm

L=30mm / ϕ 8mm

T&S Cable Systems provide a low-cost and space-saving option for 2F fan-out scenario. These mini kits are designed for 2-fiber tight-buffered and loose tube cables up to 2.0 mm (250 μ m, 0.9mm, 1.6mm, 1.8 mm, and 2.0mm) jacketed legs. The mini fan-out kits require less space than the most commonly seen simplified fan-out kits in factories..

CABLE TYPES

Tight-buffered / Loose tube non-armored fiber cables / 0.9-2.0mm

LEG TYPES

- Fiber with 0.9mm-2.0mm loose tube
- Bare fiber

FEATURES

- Compact structure, space-saving
- Easy-to-install
- Two different lengths available
- POM and Aluminum material available

APPLICATIONS

- Premise/Enterprise Networks
- Data Center, Enterprise, Broadcast, Industrial
- LAN/WAN connections
