

## UltraM HD 19'' 1U Enclosure

4 x Plastic Module Cassette or 4 x Plastic Adapter Panel,  
Sliding Type

### Description

The T&S UltraM1U Rack Mount Fiber Enclosure (Plastic/Metal Compatible, Sliding Type) is designed to hold up to four Ultra family MTP® module cassettes or fiber adapter panels, offering a modular and versatile solution for various fiber optic patching and termination needs. The sliding tray allows easy front access to fiber connections, making it ideal for backbone cabling, distribution, or cross-connect applications in both main and horizontal distribution areas.

When paired with MDC-MTP® module cassettes or adapter panels from the T&S Ultra family, the enclosure supports a patching density of up to 256 fibers within a 1U space. For more details on available front adapter port types, please refer to the charts on the following page.

### Features

- Durable and lightweight aluminum construction
- Smooth and stable sliding rails
- Textured black powder coat finish
- Universal 19" rack compatibility
- Removable top cover and front cabling bracket
