

UltraY HD 19'' 1U Enclosure

4 x Metal Module Cassette or 4 x Metal Adapter Panel, Sliding Type

Description

The T&S UltraY 1U Rack Mount Fiber Enclosure (Enclosed Sliding Type) is designed to hold up to four Ultra family MTP® module cassettes or fiber adapter panels, offering a flexible solution for various fiber optic patching and termination needs. The sliding tray allows easy front access to fiber connections, making it ideal for backbone cabling, distribution, and cross-connect applications.

Paired with MDC-MPO module cassettes or adapter panels from the T&S Ultra family, the enclosure supports up to 256 fibers in a 1U space. Various front adapter port types are available—refer to the charts below for details.

Features

- Durable cold-rolled sheet construction
- Smooth and stable sliding rails
- Textured black powder coat Finish
- Universal 19" rack compatibility
- Removable top cover

Description

Rack Unit	Loading Capacity	Installation	Material
1U	Four Cassettes/ Adpter Panels	Rack-mount	Cold-rolled Sheet
